

The Science and Technology Branch of Environment and Climate Change Canada is looking to hire by casual contract someone to work for the National Boreal Caribou Knowledge Consortium Secretariat (<https://www.cclmportal.ca/project/national-boreal-caribou-knowledge-consortium-nbckc-consortium-national-du-savoir-sur-le>). Work would take place both remotely and at the National Wildlife Research Centre at Carleton University Campus in Ottawa. We're looking for a flexible, highly organized individual that enjoys coordinating projects and is comfortable working both independently as part of a team. Ideally, this individual would have a background in ecology, wildlife biology, environmental studies, or geomatics. French communication skills are an asset. An additional asset would be if this individual has familiarity with boreal caribou conservation initiatives and/or experience with coding language such as python. Work would start as soon as possible in the new year and extend until the end of March. If you could please share this with your contacts, interested candidates can contact Lori White (Lori.White@ec.gc.ca) by Dec 15th
